## Executive Summary

Experienced Full Stack Software Developer with solid expertise in PHP, JavaScript, Python, and databases (PostgreSQL, MySQL, MongoDB). Employed as a Software Developer at Asteas Technologies in Innsbruck since June 2023, gaining practical experience in an agile development team. Thanks to my previous work as a teacher and coach, I bring strong communication skills, teamwork, and a structured, solution-oriented approach to problem-solving. Passionate about new technologies, always eager to learn, and motivated to develop innovative solutions.

---

## Professional Experience
